Student Electronic Portfolio Rubric

Design	Layout, graphics, and fonts follow a simple theme and are formatted consistently. Design does not distract from content of portfolio.
Communication with audience	The portfolio contains an introduction statement of at least 150 words that helps the viewer get to know the student. The portfolio includes an opportunity for the viewer to give feedback electronically. The portfolio contains few spelling or grammar errors. Sources of copyrighted material are cited.
Artifacts	Appropriate artifacts are included for all four 21st century skill categories (communication, collaboration, creativity, and critical thinking).
Reflections	Each artifact is paired with a thoughtful statement of at least 150 words that: -explains the project chosen or assigned -details what the student learned that was important or interesting -describes why this project demonstrates the chosen skill -describes how the project could be extended or revised
Technical quality	The viewer can easily navigate within the portfolio. Multimedia files are integrated seamlessly.
